## SUMMARY

Full-Stack Developer with experience building and maintaining web applications, APIs, and database-driven solutions. Strong foundation in web development using **HTML**, **CSS**, **React**, and **Node.js**, with experience in **Python**, **SQL**, and **Git**. Familiar with **Docker** and **AI**. Motivated and solution-oriented, with a focus on building reliable software and contributing to challenging projects.

---

## TECHNICAL SKILLS

- Frontend: HTML, CSS, React
  - Backend: PHP, Node.js, Python, .NET
  - Database: MySQL, Postgres, MongoDB
  - Portuguese (Native), English (C1 – Advanced)
- 

## PROFESSIONAL EXPERIENCE

### Câmara Municipal do Barreiro

Jan 2017 - Mar 2017

#### IT Support Technician [Intern]

Provisioned and deployed 50+ workstations, including OS and software installation, system configuration, and testing, ensuring systems were ready for end-user use for multiple poles of Barreiro's town network. **OS, Software and System Configuration**

### KCS IT

Apr 2018 - Jul 2018

#### Full-Stack Developer [Intern]

Developed dashboard web application to automate management workflow. This application was built to show JiraAPI data tailored to the team's requirements, and also generate Excel reports, reducing manual work and improving efficiency. **AngularJS, Microsoft SQL Server, JiraAPI, JavaScript, .Net Core, SQL**

### KCS IT

Jul 2018 - Aug 2020

#### Full-Stack Developer / Consultant

Developed and maintained multiple projects. Collaborated with clients and teams to translate business requirements into scalable solutions. **PHP, JavaScript, .Net, Oracle, SQL, T-SQL, Postman**

### Saponem Opera

Oct 2020 - Feb 2022

#### Assistant [Volunteer]

Assisted in laboratory, warehouse, and meetings. Maintained store's website. Fixed bugs and created functionality using Visual Basic for Excel spreadsheet automation. **VB, Wordpress**

### Independent Developer / Personal Projects

Feb 2022 - Now

Develop projects to strengthen practical experience in software architecture, API development, databases, deployment, and AI-related technologies.

---

## EDUCATION / CERTIFICATIONS

### Systems Management & Programming 2015-2018

Escola Profissional de Tecnologia Digital

### MTA - Windows Systems Fundamentals 2019

Microsoft

### Deep Learning Specialization 2025

Coursera

## PORTFOLIO PROJECTS

**ITJobs Analysis** - ITJobs.pt data analysis web app.  
**Python, Streamlit, Git**

**Sentiment Analysis API** - Sentiment Analysis API  
using **Python, FastAPI, Docker** and **Git**.

**Portfolio** - Web app showcasing dev experience.  
**React, CSS, Vite, Git**
